IBCLC, MS-HCA
National Association of Professional
and Peer Lactation
Supporters of Color

About the PTBi Collaboratories

Working to reduce the burden of prematurity, the UCSF Preterm Birth Initiative (PTBi) is a multi-year, transdisciplinary, cross-sector, and precision health-focused research effort in California (PTBi-CA) and East Africa (PTBi-EA). PTBi unites researchers, clinicians, public health experts, and communities to collaboratively apply innovative ideas and approaches to the epidemic of prematurity – the leading cause of newborn deaths around the world. Each Collaboratory features a unique group of speakers that lead discussions describing current knowledge, identifying gaps, and generating new solutions. Visit us at <http://pretermbirth.ucsf.edu>.

***Accreditation:** UCSF is accredited by the Accreditation Council of Continuing Medical Education (ACCME) to provide continuing medical education for physicians. **Designation:** UCSF designates this live activity for a maximum of 18 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
