

UCSF
Preterm Birth Initiative

Monthly **COLLABORATORY** SERIES

Listen. Learn. Discuss.

A Cell-to-Society approach to the epidemic of preterm birth. Join the conversation!

Leveraging precision health to prevent preterm birth:
A discussion of molecular, psychosocial and community contributions

Everyone is welcome!

To RSVP or receive remote access to the event, email us at pretermbirth@ucsf.edu

CME Credit Available

Thursday, JULY 21, 2016
Mission Bay Campus, MH 1400
550 16th Street
San Francisco, CA 94158

Breakfast 7:30 – 8:00 am
Presentations 8:00 – 8:30 am
Small Group Conversations 8:30 – 9:15
Closing 9:15 – 9:30

Consideration of Cellular & Genetic Processes
Kelli Ryckman, PhD
Associate Professor
Epidemiology and Pediatrics
University of Iowa

The Role of Psychosocial Stress
Chris Dunkel-Schetter, PhD
Professor of Psychology & Psychiatry
Assoc. Vice Chancellor of
Faculty Development
University of California, Los Angeles

Doing Research "with" Parents
Hope Williams
Parent
San Francisco, CA

About the PTBi Collaboratories

Working to reduce the burden of prematurity, the UCSF Preterm Birth Initiative (PTBi) is a multi-year, transdisciplinary, cross-sector, and precision health-focused research effort in California (PTBi-CA) and East Africa (PTBi-EA). PTBi unites researchers, clinicians, public health experts, and communities to collaboratively apply innovative ideas and approaches to the epidemic of prematurity – the leading cause of newborn deaths around the world. Each Collaboratory features a unique group of speakers that lead discussions describing current knowledge, identifying gaps, and generating new solutions. Visit us at <http://pretermbirth.ucsf.edu>.
