

UCSF Preterm Birth Initiative

Monthly COLLABORATORY Series

Housing and Preterm Birth: Community-Academic Partnership for Research and Action

Community-academic partnerships are fundamental to the pursuit of research done differently. The UCSF California Preterm Birth Initiative (PTBi-CA) is proud to partner with the San Francisco State Health Equity Institute and four leading community-based organizations to engage and build the knowledge of our inaugural cohort of Benioff Community Innovators - 10 women from San Francisco who are teamed up with SF State MPH students to explore programmatic and policy solutions that focus on the link between poor housing conditions and preterm birth.

Martha Ryan
Executive Director,
Homeless Prenatal
Program

About the PTBi Collaboratories

Working to reduce the burden of prematurity, the UCSF Preterm Birth Initiative (PTBi) is a multi-year, transdisciplinary, cross-sector, and precision health-focused research effort in California (PTBi-CA) and East Africa (PTBi-EA). PTBi unites researchers, clinicians, public health experts, and communities to collaboratively apply innovative ideas and approaches to the epidemic of prematurity – the leading cause of newborn deaths around the world. Visit us at <http://pretermbirth.ucsf.edu>.

***Accreditation:**

UCSF is accredited by the Accreditation Council of Continuing Medical Education (ACCME) to provide continuing medical education for physicians. Designation: UCSF designates this live activity for a maximum of 18 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.
